

Mobile Phone Configuration setting for iSDVR4-8-16HVN-L

Go to the *Main Menu*.

Then click on the *setting* tab – and hit *encode*.

The 'Encode' dialog box is shown with the following settings:

Setting	Value
Channel	All
Compression	H.264
Resolution	D1(704x576)
Frame Rate(FPS)	6
Bit Rate Type	VBR
Quality	Good
Bit Rate(Kb/S)	1024
I Frame Interval	2
Video/Audio	<input checked="" type="checkbox"/> <input checked="" type="checkbox"/>

Buttons: Advanced, OK, Cancel

In the channel option choose *all* from the drop down and make sure the right box is checked then hit ok.

The 'Encode' dialog box is shown with the following settings:

Setting	Value
Channel	1
Compression	H.264
Resolution	CIF(352x288)
Frame Rate(FPS)	25
Bit Rate Type	VBR
Quality	Good
Bit Rate(Kb/S)	512
I Frame Interval	2
Video/Audio	<input checked="" type="checkbox"/> <input type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/>
